Project Management and Contract Administration Galway

Project Management and Contract Administration

Clients often require construction professionals to manage a building project from inception to completion on their behalf. Chartered Building Surveyors are suitably trained for this function. Our surveyors can provide the expertise needed includingâ€¦

1. Tender and procurement route advice.
2. Nomination of contractor based on tender submission.
3. Preparation of construction contracts.
4. Health and Safety advice and information.
5. Monitoring of works in progress.
6. Issue of certificates of compliance.
